A NOT-FOR-PROFIT CORPORATION

August 8, 2005

Mr. Jeffrey S. Sherman
J.S. Sherman & Associates
2263 Northwest Boca Raton Boulevard
Boca Raton, Florida 33431

Dear Mr. Sherman,

As you know, Alpha-1 Antitrypsin Deficiency is a progressive, chronic, genetic disorder that usually results in severe respiratory and liver disease. AlphaNet's mission is to improve the quality of life of those affected by Alpha-1 ("Alphas") by providing a wide range of disease management services.

AlphaNet employs 20 "Alphas" to provide these services. It is highly unlikely that our employees would be able to secure health insurance, short- and long-term disability insurance or life insurance without your continued help and expertise. In addition to these coverages, we are proud to offer, through your agency, a robust benefit package that includes dental care, long-term care insurance, a SIMPLE IRA retirement plan and flexible spending account plans.

Your ability to develop such a generous fringe benefit program to cover this unique employee population, residing in 13 different states, is remarkable. AlphaNet's employees and their families recognize the value of these benefits and are extremely grateful for your accessibility and personal service.

I also want to pass along to you the appreciation of the AlphaNet Board of Directors for your help in building an imaginative and compassionate compensation program that contributes to the high morale and low turnover of our employees.

It's always a pleasure dealing with you and your staff.

Warm Regards,

Robert C. Barrett
Chief Executive Officer
